PROFESSIONAL SUMMARY

Recent Computer Science graduate passionate about solving real-world problems through scalable technology solutions. Skilled in full-stack development with React, Node.js, and MongoDB, with experience delivering intuitive and efficient web applications. Highly motivated to learn emerging technologies such as cloud infrastructure. While contributing to dynamic, forward-thinking teams. Eager to grow both technically and professionally in a fast-paced, innovation-driven environment.

EDUCATION

United Arab Emirates University

Bachelor of Science - Computer Science (12/2024)

- Excellent Academic Standing
- CGPA for Fall of 2024 in BSc CS 3.08/4.0
- Winner of the 2022 programming contest

EXPERIENCE

Programming Intern | Dubai Police (2024)

- Took part in developing internal web applications
- Successfully presented and showcased key projects to senior professionals and important figures, demonstrating confidence, clarity, and strong technical understanding.
- Contributed valuable insights that influenced and improved the team's development process, leading to more efficient workflows and better project outcomes.
- Hosted internal web and app solutions, ensuring reliability, ease of access, and smooth deployment for team-wide use.

IT support intern | RAK Electronic Government Authority (2019)

- Diagnosed and resolved hardware, software, and networking issues
- Assisted in setup, configuration, and maintenance of desktops, laptops, and peripherals.

PROJECTS

Senior Project: Smart Gym Solution

- Developed a cross-platform iOS/Android application to enhance the gym experience for users.
- Built and deployed a RESTful API to handle user data, workout sessions, and smart device communication.
- Designed and managed a backend database to store and process user statistics and session data.
- Engineered a smart gate using Arduino components, integrated with the app for automated access control.
- Collected real-time user data to generate insightful workout statistics and progress tracking.

CERTIFICATIONS

- Cisco - Cybersecurity Essentials course
- Cisco - CCNA Routing and switching course
- AlTaif - Electronic Assistant Technician
- IELTS (7.0)
